

# ROHAN HAZARI

Mumbai, India | +91 7506327224 | rohanhzri@gmail.com | [LinkedIn](#) | [Portfolio](#)

## SKILLS

- **Languages:** HTML, CSS/SASS, JavaScript, Java, C
- **Framework and Libraries:** React.js, Node.js, Express.js
- **Database:** MongoDB, PostgreSQL
- **Tools:** VSCode, Figma, Git

## PROJECTS

### ComfySloth

*React.js, Styled Components*

- Developed an e-commerce website with authentication powered by **Auth0**, payment processing via the **Stripe API**, and content management utilizing **Airtable**.
- Implemented a responsive and modular UI design using **Styled Components**.

### Travel Advisor

*React.js, Bootstrap, MaterialUI*

- Suggestions of restaurant, hotels, tourist attraction are made base on current location of device. You can **search** for specific location and apply **filters** as well.
- Integrated various third party API's from **GoogleMaps** and **RapidAPI**.

### Bloodbank Management System

*React.js, Node.js, PostgreSQL, AWS*

- This website connects blood storage facilities to manage blood supply and demand. It also allows citizens to find and register for donation camps in their area.
- Used AWS services like RDS (**data storage**), SNS (**SMS notification**), Amplify (**Hosting**), **API Gateway** to deploy my own REST API and wrote Lambda Functions in node.js to create a **serverless** project.

## EDUCATION

- **BE Computer Science**, Vidyalkar Institute of technology CGPA:- 9.78 2020-2024
- **HSC**, IES Junior College (84%) 2018-2020

## ACHIEVEMENTS

- Won *HackTheRunway hackathon* by MLH under the category of best use of web monetization.
- Open Source contributions in *Hacktoberfest* and *GirlScript Summer of Code*.
- Completed the *Software Engineering Virtual Experience* at JPMorgan & Chase Co.
